

JOIN THE NETWORK

CAPTURE & DIVERT WASTE

Remove harmful anthropogenic debris from aquatic ecosystems

RAISE AWARENESS

Trash traps can be a centerpiece for education and outreach

COLLECT DATA

Use our harmonized protocols to document what is collected and inform source-reduction

SHARE YOUR ACHIEVEMENTS

Quantitatively measure and share your local and global impact

CONNECTING LOCAL SOLUTIONS TO TACKLE GLOBAL PLASTIC POLLUTION

Through the installation of trash traps around the world, the International Trash Trap Network (ITTN) aims to increase the amount of waste collected annually from aquatic environments as part of the International Coastal Cleanup™.

To learn more about how to join the ITTN please contact info@trashtrapnetwork.org or visit trashtrapnetwork.org
